

ANNUAL WATER USE REPORTING

EXEMPT IF...
submitting Annual Report to
ACC, or inside AMA and
submitting Annual Report
to ADWR

Water pumped or diverted:

1. Annual quantity pumped
2. Well registration numbers
3. Number of customers served
4. ID and number of storage facilities and capacity

If effluent was used or received:

1. Estimated quantity generated from WWTF
2. Effluent used directly from the WWTF
3. Specific uses of effluent

If water was received from another supplier:

1. Identification of supplier
2. Well registration numbers used to pump or divert water
3. Annual quantity received
4. Number of customers served
5. ID and number of storage facilities and capacity

For systems not using meters:

Report energy consumption of well -

1. Discharge information (pipe or channel flow gpm)
2. Energy usage. Estimate pumpage based on:
 - a) Pipe flow and discharge information
 - Electrical energy records
 - Natural gas energy records
 - b) Open channel flow and discharge info.
 - Electrical energy records
 - Natural gas energy records
 - c) Hour meters
 - d) Only electrical or natural gas energy records
 - Electric well pump
 - Natural gas well pump
